

Bridges in Mathematics: Getting Started, Grades 4–5

Teachers using Bridges in Mathematics will appreciate the best practice strategies and support offered in this workshop. Participants examine the elements that make up the Bridges curriculum and learn how to use them effectively to differentiate instruction for their students. The workshop focuses on the comprehensive mathematics that students need to know across grades K-5, including problem solving and basic skills practice, based on the new Common Core State Standards. Teachers will also explore assessments, family involvement and homework.

In addition, participants explore broader issues related to teaching and learning. They learn strategies for incorporating manageable, standards-based instruction into the classroom. This workshop provides a variety of engaging examples to bring these ideas to life. Participants develop their own mathematical understanding while also focusing on a wide variety of mathematical concepts, including number (computation and estimation), data analysis, algebraic thinking, geometry and measurement.

Text & Materials

Participants should bring a tool kit and the Bridges in Mathematics Teacher's Guide appropriate for their grade level. Details sent upon registration.

Instructor(s)

Cynthia Hockman-Chupp has been teaching Bridges curriculum for the last seven years and served as a field tester for Bridges Grade 5. She has taught across grades K-12 and currently works as a curriculum writer and consultant.

How can we help?

Contact The Math Learning Center at 1-800-575-8130 or visit our web site at www.mathlearningcenter.org.

REGISTER TODAY

Call 1-800-575-8130 with Visa or Mastercard or fax form to 503-370-7961. You can also mail this completed form with check, credit card number, or PO to The Math Learning Center, P.O. Box 12929, Salem, OR 97309. Full payment of the noncredit fee is due upon registration. A \$25 non-refundable cancellation fee per workshop applies.

Course Information

Bridges Getting Started, Grades 4–5

Section: A13

Dates: July 30 & 31, 2012

Time: Monday & Tuesday
8:00 a.m. - 3:30 p.m.

Location: George Fox University
12753 SW 68th Ave
Portland, OR 97223

Fee: \$300 noncredit
Payable to
The Math Learning Center

Optional University Credit
One (quarter-hour) graduate credit

Optional credit through Western Oregon University.
\$50 for one quarter-hour graduate credit.
A-F or Pass/No Pass grading.
Details sent upon registration.

Bridges Getting Started, Grades 4–5 Section: A13 One (quarter-hour) graduate credit (optional)
